This Plan extends the term of the manufacturer's limited warranty coverage and technical support coverage for the Gateway or eMachines-branded personal computer, server or other Gateway or eMachines-branded hardware identified on your invoice. This Plan may include additional services described below. Please refer to your invoice for the services that you have purchased. This Plan, your invoice and any other evidence of purchase of the Plan constitute the entire agreement relating to this Plan. All Plan coverage commences on the date your product is shipped by Gateway and lasts for the period stated on your Gateway invoice. This Plan covers manufacturer's defects in material and workmanship that are the result of normal usage. **THIS PLAN CONTAINS A DISPUTE RESOLUTION CLAUSE (SEE BELOW).**

Limited Warranty:

Please refer to the Gateway Limited Warranty Agreement for the coverage, duration and terms of your limited warranty. The limited warranty is provided by Gateway and not by us. This Plan is inclusive of the manufacturer's warranty; it does not replace the manufacturer's warranty, but provides certain additional benefits during the term of the manufacturer's warranty. After the manufacturer's warranty expires, this Plan continues to provide the manufacturer's benefits as well as certain additional benefits listed within the Plan's terms and conditions. We are not responsible for parts and services covered during the manufacturer's warranty period. Parts and services covered during the manufacturer's warranty period are the responsibility of the manufacturer.

Technical Support:

We will provide technical support to you for your personal computer or server during the term of this Plan. The scope and terms of technical support are described in the Gateway Limited Warranty Agreement.

OPTIONAL SERVICES:

Remote Warranty Service. Remote services are available only in the United States and are not available for mice, monitors, keyboards, docking stations, and similar external components of the product.

- **Basic On-Site.** We will install replacement parts in your product as necessary to correct defects covered under your limited warranty. If we reasonably determine that you are not able to install a replacement part yourself, we may, at our discretion, dispatch a service representative to your location to install the part.
- **Gateway Server Hardware Diagnostic Services.** Under this service, we will dispatch an authorized technician to your place of business to diagnose issues covered under the limited

warranty applicable to your Gateway server. To initiate on-site diagnostics, you must contact us and we will attempt to diagnose and resolve your issue remotely. If we determine that your issue cannot be diagnosed over the phone, then within 4 hours we will dispatch an on-site technician to complete the diagnosis of your issue. We will work diligently to resolve your issue, but we cannot guarantee that your issue will be resolved in any particular time. The on-site visit will be for issue diagnostics only. If the technician determines that a replacement part or product is needed, it will be ordered and installed under our standard on-site service policies. Because this service is not available in some locations, we may not be able to provide the service if you move your server product from the location to which it was originally shipped by us.

- **Gateway Server 2 and 4-Hour Response Service.** Under this service, 24 hours per day, 7 days per week or 9 hours per day, 5 days per week (excluding weekends and holidays, depending on your service plan), we will dispatch an authorized technician to your place of business to diagnose and repair issues covered under the limited warranty applicable to your Gateway server. On-site repairs under this service apply to components of the product necessary to keep it up and running as determined by us. This is not available in all locations. To initiate on-site diagnostics and repair, you must contact us and we will attempt to diagnose and resolve your issue remotely. If we determine that on-site repair service is necessary to restore your product to an up-and-running condition, then within 2 or 4 hours (depending on your service plan) we will dispatch an on-site technician to complete the diagnosis of your issue and install replacement parts as necessary to restore your product to an up-and-running condition. We will work diligently to resolve your issue, but we cannot guarantee that your issue will be resolved in any particular time. Your coverage begins from the date of shipment of the product. Because this service is not available in some locations, we may not be able to provide the service if you move your product from the location to which it was originally shipped by Gateway. This service may not be available for up to 30 days after your product is delivered to you, depending on your system configuration and parts stocking levels in your service area. During this start-up period, we will attempt to restore your product to an up-and-running condition as soon as possible.
- **Gateway 4-Hour Advanced Exchange Parts Replacement Service.** Under this service, 24 hours per day, 7 days per week or 9 hours per day, 5 days per week (excluding weekends and holidays, depending on your service plan), we will dispatch replacement parts to your place of business within 4-hours of completing phone technical support diagnostics when replacement parts are required to restore your product to an up and running condition. To initiate this service you must contact us and we will attempt to diagnose and resolve your issue remotely. If we determine replacement parts are required to restore your product to an up-and-running condition, then within 4 hours we will dispatch replacement parts to your place of business. You are responsible for packaging and shipping of the defective component to us. Your coverage begins from the date of shipment of the product. This service is not available in all locations. Because this service is not available in some locations, we may not be able to provide the service if you move your product from the location to which it was originally shipped by us. This service may not be available for up to 30 days after your product is delivered to you, depending on your system configuration and parts stocking levels in your service area. During this start-up period, we will attempt to restore your product to an up-and-running condition as soon as possible.
- **One-Time Battery Replacement For Laptops.** We will provide a one-time replacement of the battery for your laptop computer if we determine, in our sole discretion, that the original battery fails to perform to specifications.

Installation Services. The following services are available in the United States.

- **Basic Installation Services.** An authorized technician will install and verify the operation of your product. This service does not include network installation.
- **Network Installation Services.** An authorized technician will install and connect the network cards, applicable software and products purchased from Gateway as part of a business network solution. You must ensure that proper network wiring is available and that your existing products meet the minimum requirements necessary for connection to your network.

Please call us for information on the minimum requirements for this service. **Please Note:** The technician will not perform troubleshooting on your network wiring. All troubleshooting of wiring requested by you shall be subject to a separate fee. If installation services are required to be rescheduled due to network wiring issues, you may incur additional charges.

- **Data Migration Services.** An authorized technician will transfer data from an old personal computer to a new product purchased from Gateway. The cost of this service is based on the amount of data that is transferred: up to 200 mb, 400 mb, and greater than 400 mb. In addition, you may be charged extra fees if you do not perform all of your responsibilities as set forth below or if it is necessary to reschedule service because you have not performed these responsibilities. Only data files of standard format (e.g. *.xls, *.doc, *.ppt file extensions) will be transferred, no individual file may exceed 95 mb, no application software, operating system software, or databases will be transferred, and the operating system of the old personal computer must be Microsoft 3.1 or a subsequent release. Please call us for information on additional technical requirements for this service. Data migration services are available only in conjunction with system installation services. Data migration service is available in the continental United States. In addition to the other responsibilities set forth in this Plan, you are responsible for completing the following tasks before the technician arrives:
 - a. Creating a single folder (or directory) named **“Migrate”** and transferring to this folder all data that you want transferred from your old personal computer to your new product;
 - b. Conducting an anti-virus scan on the data prior to the service appointment;
 - c. Ensuring all aspects of software security, including performing and reloading backups and licensing;
 - d. Converting data to new file formats (e.g. WordPerfect to Word);
 - e. Noting the size of **“Migrate”** folder or directory before and after migration service to ensure that all data was successfully transferred;
 - f. Ensuring that systems are prepared and functional for migration services;
 - g. Creating a backup copy of all data that will be transferred;
 - h. Ensuring that there are an adequate number of electrical outlets for old equipment and new equipment to be utilized at the same time;
 - i. Ensuring that old equipment is in working condition for data migration services (e.g. functional serial/parallel ports, system boots properly, etc.);
 - j. Obtaining “quick fixes” from OEMs that you may need to address any compatibility issues that occur post migration.
- **De-installation Services.** We will disconnect the monitor, keyboard, mouse, and peripherals from your old personal computer, box the system using packing materials you supply (you may use the packing materials from your new product, if sufficient), and transport the old system to a central location within the same building or floor on a dolly or utility cart that you supply. Deinstallation services are available only in conjunction with system installation services.
- **Disposition Management Services.** We will provide transportation and disposition of used products, described as monitors (up to 21 inches), keyboards, mice, printers, scanners, portable and desktop personal computers (“Eligible Assets”). Title to all Eligible Assets passes to us when they are picked up from your location. Disposition Management Services are available in the continental United States in those areas located in a business zone (not available for residential locations). You are responsible for completing the following tasks before the technician arrives:
 - a. Packaging the Eligible Assets in individual cartons not exceeding 30 inches in length, 27 inches in width and 42 inches in height (deinstallation services are available from Gateway for a separate fee, although you must tape all cartons closed);
 - b. Completing the **“Inventory Worksheet for Disposition Management”** and submitting it to Gateway (assets not appearing on the inventory may be refused for shipment or subject to an additional fee);
 - c. Having all Eligible Assets, packaged and ready for shipping, assembled at one location on the scheduled pick-up day.

Requests for assistance on multiple questions or problems are considered multiple incidents. The duration of time available to use purchased incidents is listed on your invoice.
